uses of the product, information on whether or not the product contains any recovered material, in addition to biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPA-designated landscaping products and which product should be afforded the preference in purchasing.

NOTE TO PARAGRAPH (D): Biobased mulch and compost materials within this designated item can compete with similar landscaping products with recycled content. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated landscaping products containing recovered materials as items for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.15.

§ 2902.57 Multipurpose lubricants.

- (a) Definition. Products designed to provide lubrication under a variety of conditions and in a variety of industrial settings to prevent friction or rust. Greases, which are lubricants composed of oils thickened to a semisolid or solid consistency using soaps, polymers or other solids, or other thickeners, are not included in this item. In addition, task-specific lubricants, such as chain and cable lubricants and gear lubricants, are not included in this item.
- (b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 88 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.
- (c) Preference compliance date. No later than October 18, 2011, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased multipurpose lubricants. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the

use of biobased multipurpose lubricants.

(d) Determining overlap with an EPAdesignated recovered content product. Qualifying products within this item may overlap with the EPA-designated recovered content product: Re-refined lubricating oils. USDA is requesting that manufacturers of these qualifying biobased products provide information on the BioPreferred Web site about the intended uses of the product, information on whether or not the product contains any recovered material, in addition to biobased ingredients, and performance standards against which the product has been tested. This information will assist Federal agencies in determining whether or not a qualifying biobased product overlaps with EPAdesignated re-refined lubricating oils and which product should be afforded the preference in purchasing.

NOTE TO PARAGRAPH (D): Biobased multipurpose lubricant products within this designated item can compete with similar multipurpose lubricant products with recycled content. Under the Resource Conservation and Recovery Act of 1976, section 6002, the U.S. Environmental Protection Agency designated re-refined lubricating oils containing recovered materials as items for which Federal agencies must give preference in their purchasing programs. The designation can be found in the Comprehensive Procurement Guideline, 40 CFR 247.11.

§2902.58 [Reserved]

§ 2902.59 Topical pain relief products.

- (a) *Definition*. Products that can be balms, creams and other topical treatments used for the relief of muscle, joint, headache, and nerve pain, as well as sprains, bruises, swelling, and other aches.
- (b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 91 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.
- (c) Preference compliance date. No later than October 18, 2011, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased topical pain relief

7 CFR Ch. XXIX (1-1-11 Edition)

§ 2902.60

products. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased topical pain relief products.

[75 FR 63701, Oct. 18, 2010]

§ 2902.60 Turbine drip oils.

- (a) Definition. Products that are lubricants for use in drip lubrication systems for water well line shaft bearings, water turbine bearings for irrigation pumps, and other turbine bearing applications.
- (b) Minimum biobased content. The preferred procurement product must have a minimum biobased content of at least 87 percent, which shall be based on the amount of qualifying biobased carbon in the product as a percent of the weight (mass) of the total organic carbon in the finished product.
- (c) Preference compliance date. No later than October 18, 2011, procuring agencies, in accordance with this part, will give a procurement preference for qualifying biobased turbine drip oils. By that date, Federal agencies that have the responsibility for drafting or reviewing specifications for items to be procured shall ensure that the relevant specifications require the use of biobased turbine drip oils.

PART 2903—BIODIESEL FUEL EDUCATION PROGRAM

Subpart A—General Information

Sec.

2903.1 Applicability of regulations.

2903.2 Purpose of the program.

2903.3 Eligibility.

2903.4 Indirect costs.

2903.5 Matching requirements.

Subpart B—Program Description

2903.6 Project types.

2903.7 Project objectives.

Subpart C—Preparation of an Application

2903.8 Program application materials. 2903.9 Content of an application.

2903.10 Submission of an application.

2903.11 Acknowledgment of applications.

Subpart D—Application Review and Evaluation

2903.12 Application review.

2903.13 Evaluation criteria.

2903.14 Conflicts of interest and confidentiality.

Subpart E—Award Administration

2903.15 General.

2903.16 Organizational management information.

2903.17 Award document and notice of award.

Subpart F—Supplementary Information

2903.18 Access to review information.

2903.19 Use of funds; changes.

2903.20 Reporting requirements.

2903.21 Applicable Federal statutes and regulations.

2903.22 Confidential aspects of applications and awards.

2903.23 Definitions.

AUTHORITY: 7 U.S.C. 8104; 5 U.S.C. 301.

SOURCE: 68 FR 56139, Sept. 30, 2003, unless otherwise noted

Subpart A—General Information

§ 2903.1 Applicability of regulations.

- (a) The regulations of this part only apply to Biodiesel Fuel Education Program grants awarded under the provisions of section 9004 of the Farm Security and Rural Investment Act of 2002 (FSRIA) (7 U.S.C. 8104) which authorizes the Secretary to award competitive grants to eligible entities to educate governmental and private entities that operate vehicle fleets, other interested entities (as determined by the Secretary), and the public about the benefits of biodiesel fuel use. Eligibility is limited to nonprofit organizations and institutions of higher education (as defined in sec. 101 of the Higher Education Act of 1965 (20 U.S.C. 1001)) that have demonstrated both knowledge of biodiesel fuel production, use, or distribution and the ability to conduct educational and technical support programs. The Secretary delegated this authority to the Chief Economist, who in turn delegated this authority to the Director of OEPNU.
- (b) The regulations of this part do not apply to grants awarded by the Department of Agriculture under any other authority.
